**Subject:** Support local jobs

Hi, I seldom write public officials but I am today because I believe in clean rivers.

We need to clear up the river, but I hope EPA regulators understand that we can't have a pristine river that gets that way at the expense of small businesses and jobs.

Thank you for what you do for our environment. Please consider my thoughts and approve a plan that's good for our economy as well. Ash Grove Cement Company, we as employees and other business have strong concerns that EPA has underestimated both the cost of the project and length of time to complete it. Additionally, I believe EPA is basing these decisions on old data when new, more precise data also is available for consideration. Please reevaluate this plan.

Sincerely,

(b) (6)
